

# Monday, March 22

## Program Descriptions

CE Credits: Program = 5.5

**8:00 am – 9:00 am**

**Registration/Continental Breakfast**

**9:00 am – 10:30 am**

**“Don’t Get Hit by a Car While Playing Bingo on a Deserted Island”**

**Cea Cohen Elliott, MA**

Professional Motivational Speaker

Life can be filled with stress and problems, but we can look at these issues with a different slant... why worry about things that we can't control and if we have control over the things that make us feel "crazy" we don't have to worry at all. Cea will talk about ways to balance our lives and look at things with a different perspective. Warning: this session could make you feel happy, carefree and maybe, a bit giddy. Attend at your own risk.

**10:30 – 12:00 pm**

**“Health Story Project”**

**Susan M. Lucci, RHIT, CMT, AHDI-F**

Member

Health Story Project Executive Committee

This session will explain how to enable your current narrative dictation and transcription work flow process to provide structured data in your EHR system through the adoption of the Health Story Project. Discover how your facility can help your EHR system reap the benefits and meet meaningful use requirements of documentation utilization without asking physicians to change their processes.

**12:00 pm - 1:30 pm**

**OHIMA Annual Business Meeting, AHIMA Update & Awards Recognition Luncheon**

The newly elected OHIMA Board will be introduced; highlights of AHIMA activity will be discussed, followed by the awards luncheon honoring OHIMA's Distinguished Member and Achievement Award winners.

*\* IMPORTANT NOTE: Be sure to check YES on your registration form to attend the Monday luncheon.*

### CONCURRENT SESSIONS:

**1:45 pm – 3:00 pm & 3:15 pm – 4:30 pm**

Choose 1 session from each time. Please note that session 4 does not repeat.

**1. “The Joint Commission and National Patient Safety Goal Update”**

**Kathleen Catalano, RN, JD, FHIMSS**  
Healthcare Consultant

This session will examine the impact changes in the Joint Commission's standards and the 'deemed status' requirements have had on HIM departments and professionals. A special focus will be placed on the changes in the National Patient Safety Goals that affect HIM. The Joint Commission standards that pose 'opportunities' for the HIM professional will be targeted. Throughout the presentation, tips on putting your 'best foot forward' during a Joint Commission survey will be provided.

**2. “Road Map to a Successful Computer-Assisted Coding Implementation”**

**Terri Adam**  
Regional Manager  
KIWI-TEK

Where do you start on selecting a Computer-Assisted Coding Vendor? What is the best way to evaluate their coding software? What do I need to do before I start the project? Do I still need certified coders? Who do I need on-board to make the process as smooth as possible. All these questions and more will be addressed in this session. Please feel free to bring your list of questions. You will receive a Computer-Assisted Coding CD to take back to the office.

**3. “Workflow for Health Information Management”**

**Barbara Hinkle-Azzara, RHIA**  
Chief Product Strategist  
Meta Health Technology Inc.

This session will allow you to gain an understanding of workflow and process automation, including an overview of the impetus behind utilizing workflow in the health information management department, and the overall benefits gained from utilizing workflow. Learn the basic components of workflow, as well as several tools and techniques for workflow assessment. You will be able to identify and assess the current need for workflow automation in your own departments and will be able to apply the tools and techniques to analyze current processes that can be incorporated into a workflow redesign.

**4.a. “Impact of HITECH Act on Business Associates**

**Ethan Cohen**  
President  
SPi Healthcare

The Health Information Technology for Economic and Clinical Health Act (HITECH Act) is part of the American Recovery and Reinvestment Act of 2009 (ARRA). The HITECH Act now applies certain HIPAA provisions directly to business associates. This presentation will discuss its impact and review a checklist of questions to comply with HIPAA that you should ask if your dictation is being transcribed offshore.

**4.b. “Medical Evidence Gathering and Analysis through Health Information Technology (MEGAHIT) “**

**Jim Borland**  
Special Advisor for Health IT  
Office of the Commissioner,  
Social Security Administration

Mr. Borland will share his expertise in his position with the Social Security Administration as Special Advisor for Health IT. He will address the current trends for the nation, the region and for the State of Ohio Disability Determination Service regarding HIT initiatives, electronic health records, the Nationwide Health Information Network, and regional health information exchanges. Learn how requests for medical records can be processed electronically using the electronic tools that are currently available to allow for efficient turn-around of requests with present day examples of same day request and response. These same day requests and response allows for an expedient processing of payment for records and a quick disability decision for the applicant resulting in less time to access medical care benefits.

**4:30 pm – 5:45 pm**

**Meet & Greet the Exhibitors Awesome 80s Party!**

Request your favorite 80s tunes from our DJ, play 80s trivia, Atari or just relax and network with your friends and colleagues during this fun flashback party! What a great way to welcome the exhibitors to our show – everyone is invited to share in some awesome 80s food, drink and fun!
